

VarioFilterPress®

Chamber Filter Press

Manufactured by J.K.F.
Made in Germany

- For processing must lee from sedimentation and flotation
- For filtrating must and wine
- 10% excess return in conjunction with the VarioSan® process

- Robust version of the filter for a long service life
- Raised design for an easy and quick discharge of the filtercake
- High-quality filter plates for a reliable sealing
- Functional connecting fittings for a rational method of operating

VFP 470	Number of chambers	Content (Litres)	Filter area (m ²)	Overall length (mm)	Overall width (mm)	Overall height (mm)	Infeed height (mm)	Dead weight (kg)
	10	34	3,2	1.685	980	1.480	1.115	750
	20	69	6,5	2.240	980	1.480	1.115	850
	30	104	9,8	2.800	980	1.480	1.115	950
	40	138	13,0	3.360	980	1.480	1.115	1.050
VFP 630	Number of chambers	Content (Litres)	Filter area (m ²)	Overall length (mm)	Overall width (mm)	Overall height (mm)	Infeed height (mm)	Dead weight (kg)
	20	131	11,8	3.200	1.140	1.595	1.170	2.100
	30	196	17,8	3.700	1.140	1.595	1.170	2.300
	40	262	23,7	4.200	1.140	1.595	1.170	2.500
	50	328	29,7	4.800	1.140	1.595	1.170	2.700
	60	393	35,6	5.300	1.140	1.595	1.170	2.900

Possible special equipment:

Membrane plate with squeezing unit

- for squeezing the filter cake
- for reducing the loss of products

Stainless steel panelling

- for an optical upgrading

Drip tight plate version

Different feed pumps
